

DIGIFEST

Dear Sponsor

Thank you for considering a sponsorship of DigiFest, a new exciting and challenging team-based competition that is a celebration of learning and digital tools.

The need today is for pupils who are keen to program, to be interested in working in I.T. and to be ready for an information technology based future. This is something we are passionate about. DigiFest is a way to promote use of a wide range of eLearning digital tools (Digital Technologies) at a primary school level.

We are seeking two levels of sponsors. Gold Sponsors (those keen to support the competition to a higher level) and Category Sponsors; businesses keen to support a category of the competition. Sponsorship goes directly towards paying for the physical costs of the event as all staff co-ordinating DigiFest are volunteers.

Thanks for your time

DigiFest

Gold Sponsors

Your support will allow give you the opportunity to sponsor a category, assist with supporting the competition, and have your name promoted in our media and school releases.

Category Sponsors

Your support will enable a category to be resourced, awards

Forms of Sponsorship

Please talk to us about cash sponsorship, product donation sponsorship or support you can give in promotion and advertising.
